Front End Web Developer

Front-End web developer with over two years of experience, specializing in React and cutting-edge technologies. Known for creating attractive and functional interfaces, delivering innovative solutions in challenging environments. Recognized for adaptability, teamwork, and technical excellence.

WORK EXPERIENCE

Freelance Full Stack Developer

2023 - Present

- Led numerous projects, both personal and professional, focused on high-quality web solutions using technologies such as React and full stack.
- Optimized and executed effective design implementations, resulting in exceptional deliverables and customer satisfaction.

Trainee assistant

Instituto Universitario Aeronáutico (IUA), November 2018

- Contributed to a team project developing a website on computer security and prevention of sensitive information theft.
- Implemented components using React.js, ensuring smooth and secure user experiences.
- Strengthened teamwork skills and focused project approach.

EDUCATION

University Degree in Programming

Universidad Tecnológica Nacional (FRC), March 2021 - July 2023

- Acquired solid knowledge in web project-oriented programming and frontend technologies, with special emphasis on React.js.
- Developed essential skills for creating and optimizing attractive and functional interfaces through collaborative projects.

TECHNOLOGIES

- React.js, Next.js, JavaScript, TypeScript
- Redux, Zustand, Zod, Tailwind CSS
- Cypress, Jest
- Node.js, Express, Nest.js
- PostgreSQL, MySQL, Prisma ORM
- Git, Jira
- Application of AI's

LANGUAGES

English A2

- Proficient in understanding and communicating in a professional context, participating in basic conversations, and writing documents at an intermediate level.

ADDITIONAL SKILLS

- **Troubleshooting:** Efficiently address technical and design issues in web projects, utilizing analytical skills and critical thinking.
- **Project Management:** Experience in project management using agile methodologies such as Scrum or Kanban, coordinating teams, and maintaining effective communication.
- **Responsive Design:** Strong knowledge of responsive design principles to create adaptive interfaces, understanding user needs for user-centered experiences.

HIGHLIGHTED PROJECTS

- **E-Commerce with administration panel:** Developed as the final project of my university degree. This e-commerce platform allows users to add products to their shopping carts and complete transactions using Mercado Pago API. Implemented user authentication, account management, and administration panel with reports and filters.
- **AI-based survey system:** Utilized artificial intelligence to analyze user responses and recommend suitable SaaS solutions. Collected user data, processed it using OpenAI ChatGPT API, and provided personalized recommendations. Stored data for analysis and reporting on system efficiency.
